**Subject:** Notes from call with North Dakota DEQ re: proposed adoption of fish tissue criterion for selenium  
**Attachments:** ND WQS Summary of discussion re NDDEQ Selenium Criteria with OW&R8 Oct 26 2020.docx

Hi - thanks so much for participating on the call last week with NDDEQ regarding the state's proposed adoption of EPA's recommended fish tissue criterion for selenium and for the recommended edits to the state's WQS to reflect what was discussed.

If you have a chance, can you please take a look at the attached call summary to make sure I accurately captured the discussion? Any edits are greatly appreciated.

Thanks,  
Holly
